

Expression écrite #4 : ma profession

Due Tuesday, Nov. 18 in class
Both steps must be completed and handed in.

NOTE: No help from friends, tutors, or online translators is allowed for either step.

A) Do the Première étape on p. 112.
This first step will help you prepare.
It will be checked for completion and completeness.

- ▶ • You can choose to **write about a profession you'd really like to do, OR** you can just **make it up** (especially if the vocab on your chosen profession is too difficult for this level).
- ▶ • Use vocab from **Module 4, Module 5, the glossary, your notes, or sheets I've handed out** (<http://autrefois.org>).
- ▶ • For an **occasional** word that you **don't know** but is important to what you're saying, you can either use a **dictionary** (for example, a paper dictionary or <http://wordreference.com>) or **ask your teacher**.
- ▶ • You can follow the general format of the **model**, but **personalize it**. You **don't** have to use complete sentences in the first part, but can if you'd like.

B) Do the Deuxième étape on p. 112.
This is the composition itself.
You'll be graded on Content, Vocabulary, Grammar, and Organization.

- ▶ • Write a **paragraph** of at least **6-8 sentences**.
- ▶ • Use **vouloir** (Module 5) in the present or conditional to say **what you want/would like** to do, the **futur simple with aller** (Module 4) to talk about **future plans**, & the **present to describe** yourself.
- ▶ • You can use **vocab or sentences** from what you wrote for the **Première étape**, but make sure it **flows logically**.
- ▶ • Try to use **vocab and structures you know** or understand, even if it means simplifying. In FREN 1010, you're not expected to write like Sartre or Victor Hugo. :-)
- ▶ • **DON'T** just copy the model. **DO** use the model, vocab in the book, notes/sheets from class for ideas of useful vocab and expressions. **If you have questions, please ask me!! :-)**
